

OEM PROCESS

A Global Network, A Proven Process, and Over 70 Years Experience.
DTS delivers world class solutions and experience for your business.

At Dimplex Thermal Solutions, our custom OEM designs begin with a deep understanding of your needs. We believe that innovative solutions are only successful when we fully grasp your application requirements and challenges. From our initial discussion through to full production, we ensure that your custom product is precisely commissioned and meets all specifications. Our exceptional **24/7 global support** continues throughout the **18-month parts and labor warranty** and throughout the entire lifespan of your chiller.

We Do it All

- Multiple circuits?
- Modular for growth?
- Freeze protection?
- Complex fluids?
- Tight tolerance?
- Low temperature?
- Added heating circuit?

**No problem -
We have the solution.**
